

Get Connected

Generac's bestselling line of home standby generators, **the Guardian Series**, now come equipped with Wi-Fi®. When you connect your Wi-Fi enabled generator with our Mobile Link™ service, it gives you the ability to proactively monitor your generator's status in real-time, 24/7 for enhanced peace-of-mind. No more surprises when you need your generator most.

Save money.

Your Wi-Fi generator taps into your home network—a more cost-effective option than using cellular networks, also eliminating the need to purchase additional hardware.

Save time and headaches.

Our Mobile Link service connects with your Wi-Fi generator to provide real-time status updates. No more surprises when you need your generator the most.

Improved ownership experience.

Having proactive information about your generator (24/7, 365 days a year) allows you to act quickly when a problem occurs—before or during an outage.

More peace-of-mind and confidence.

Added protection and security whether you're home or away.

Subscription Plans Designed for You

We've created a tiered subscription service designed with you in mind. With any of these plans, you can download our free Mobile Link™ app to receive notifications and information about your Wi-Fi® enabled generator and monitor your generator from anywhere in the world. The Mobile Link app is available for download on Apple and Android Devices, or through our web app at MobileLinkGen.com

	FREE	ACTIVE
	View your generator's status, and receive one monthly email that updates you on your generator's status changes, faults, and warnings.	View your generator's status, and receive active notifications (email, text, push) on your generator's status changes, faults, and warnings.
